

For Business Owners: How To Save Money On Dental Bills

Is your visit covered today? If not, use a low-cost Health Spending Account to save money.

Did you know, as a business owner, your corporation can reimburse you for expensive dental costs? 100% tax-free to you and 100% tax deductible for your company.

COVERAGE

Major and minor dental treatments.

Also included: prescription drug coverage, vision, orthodontics, and paramedical coverages like massage therapy, naturopathy, physiotherapy and more.

Almost everything medical related is claimable under a Health Spending Account (HSA).

HOW IT WORKS

Step 1: Pay for the expense using your personal credit card or bank account

Step 2: Claim the receipt with your HSA

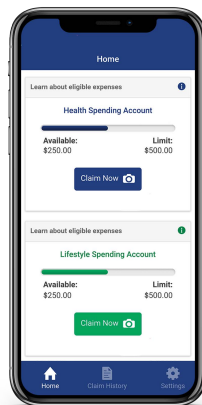

Step 3: Fund the HSA with your business account

Step 4: The company reimburses the money back to you.

This way reimbursements come out tax-free, saving you from paying yourself more taxable income and incurring CPP, EI or additional income tax. Some clients see tax savings of over \$2000 each year!

MODERN TECHNOLOGY

Get access to the simplest mobile app of it's kind. Send off your health and dental receipts by taking pictures on the app. That's it!

According to one user, "That's all I have to do? I am definitely going to show everyone!"
